Continuation of Exhibit shown or demonstration conducted, If Yes, brief description:

Process of creating and printing a lenticular image and placing a lenticular surface onto the image to produce a composite lenticular image that produces movement and depth.

Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments:

Discussed independent claims and the language concerning the combining of the background, captured image, and foreground image. It was agreed that the addition of "lenticular" in reference to both composite image and surface would help clarify the claims.
